

ICT-indicators from Norway

Graphic presentation compiled by Leif Knudsen of RKK by data collected by Gaute Fardal of Dalanerådet, Ingrid Roth of Ryfylke IKS and Jostein Pettersen of Rogaland County Council, after an IO-model developed and adapted by Bjarte Ravndal and Jan Frick of the University of Stavanger. Many thanks also to Odd Harald Olsen from Ryfylke IKS and Bjørg Kaspersen for quality assurance and punching. Note: "All regions" = the 8 European regions participating in the project.
